

RULE
Office of the Governor
Division of Administration
Racing Commission

The Louisiana State Racing Commission has amended the following rule. The Equine Medical Director of the Louisiana State Racing Commission has advised that the concern regarding Equine Piroplasmosis remains, but has been narrowed to the strain, Theileria equi. The need for a negative test for Babesia caballi is no longer required due to the extremely low incidence of Babesia caballi. This will significantly reduce the cost of the testing for the owners of the racehorses requiring testing for Equine Piroplasmosis.

Title 35
HORSE RACING
Part I. General Provisions
Chapter 13. Health Rules

§1304. Mandatory Health Screening

A. ...

B. No horse shall be allowed to enter the confines of a racetrack of any association holding a license to conduct a race meeting or race in Louisiana unless it has had an Equine Piroplasmosis (EP) test taken within 12 months of the date of entry upon the racetrack and/or race, with a negative result for Theileria equi. Record of the negative test shall be attached to registration papers of the horse upon entry to the racetrack. The trainer of the horse is responsible for insuring that a negative Piroplasmosis test result is in the racing secretary's office as required by this rule.

AUTHORITY NOTE: Promulgated in accordance with R.S. 4:141 and R.S. 4:142.

HISTORICAL NOTE: Promulgated by Department of Commerce, Racing Commission, LR 14:226 (April 1988), amended by the Office of the Governor, Division of Administration, Racing Commission, LR 37:1393 (May 2011).

Charles A. Gardiner III
